The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government.

Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics. A sobering account of a disenfranchised American working class and important policy

solutions to the nation's economic inequalities. One of the country's leading scholars on economics and social policy, Isabel Sawhill addresses the enormous divisions in American society--economic, cultural, and political--and what might be done to bridge them. Widening inequality and the loss of jobs to trade and technology has left a significant portion of the American workforce disenfranchised and skeptical of governments and corporations alike. And yet both have a role to play in improving the country for all. Sawhill argues for a policy agenda based on mainstream values, such as family, education, and work. Although many have lost faith in government programs designed to help them, there are still trusted institutions on both the local and the federal level that can deliver better job opportunities and higher wages to those who have been left behind. At the same time, the private sector needs to reexamine how it trains and rewards employees. This book provides a clear-headed and middle-

way path to a better-functioning society in which personal responsibility is honored and inclusive capitalism and more broadly shared growth are once more the norm. Analyzes the growing divide between the incomes of the wealthy class and those of middle-income Americans, exonerating popular suspects to argue that the nation's political system promotes greed and under-representation. American Government: In the United States, the government gets its power to govern from the people. We have a government of the people, by the people, and for the people. Citizens in the United States shape their government and its policies, so they must learn about important public issues and get involved in their communities. Learning about American government helps you understand your rights and responsibilities and allows you to fully participate in the American political process. The Founders of this country decided that the United States should be a representative democracy. They wanted a nation

ruled by laws, not by men. In a representative democracy, the people choose officials to make laws and represent their views and concerns in government. This book will help you understand the principles of American democracy, the U.S. system of government, and the important rights and responsibilities of U.S. citizenship. -- page 1. "Should be in the hands of every history teacher in the country."— Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens

now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools. A guide to the most relevant issues in contemporary American politics provides nonpartisan coverage of a range of topics from

the war in Iraq and climate change to the economy and renewable energy sources. From the founding of the American government to the present-day challenges, this clearly explained text is a perfect guide for anyone who wants to be knowledgeable about the democratic system and the laws that affect the lives of Americans. It elucidates the complexity of the U.S. political system and provides readers with the information necessary to make them more engaged and competent participants in the American system of government. This book was designed for those who want to develop a better understanding of American political culture, structures, and governmental functions, as well as the relationships between the branches of government and associated institutions. The content is focused on an essential review of all the important facts, concepts, and theories of U.S. government and politics. You will learn about historical figures and important events that established the foundations of American

government, the meaning and significance of the Constitution and the Bill of Rights, how each branch of government functions and how they interact with each other, as well as the influence of special interest groups on policy and politics. Created by highly qualified political science teachers, scholars, and researchers, this book educates and empowers both the average and the highly informed American, helping them develop and increase their understanding of American democracy. This vibrant, illustrated guide to the ins and outs of United States politics provides a clearer understanding of the current events and regular processes that shape this nation and the world. Decipher the American political system with this clear, easy-to-understand guide to the basics of the United States political system, from the founding of the thirteen colonies, to the foundations of the constitution, to how elections work. You'll also find information about the history and context of current issues, like how Supreme Court justices

are appointed; the electoral college and the popular vote; and how to get involved in the political process. Perfect for anyone looking for information on basic political processes, The Infographic Guide to American Government includes graphics that help simplify a range of topics from the Revolutionary War to all about a free press. Learning about civics shouldn't be boring. How America Works gives teens a fun, behind-the-scenes look at how the U.S. government works, why they should care and how they can get involved. But this isn't just any old civics primer. Appealing graphics and a conversational tone draw readers in from the very first page. Political cartoons and debates spark critical thought. And age-appropriate explanations make even the most complex civics topics accessible and easy to understand. In short, this comprehensive guide has everything teens need to know about government and civic engagement (and probably don't). 11 easily digestible units From the Declaration of

Independence to civil rights and immigration, How America Works helps readers understand the foundations of our nation and the key civic issues facing America today--without dry or complicated language. Ideas for civic engagement It's easy for teens to feel like the government doesn't matter to them. But when they see their interests and concerns reflected on every page, they'll feel empowered to get involved. And we've got plenty of ideas to help them out. Perfect for teachers or parents Your middle- and high-school students are the voters, active citizens, and community leaders of tomorrow. When you give them How America Works, you're giving them a guide to making their voices heard. Exclusive online bonus Order now and get access to online videos, lessons and writing extensions that expand on the topics covered in the book. Here's what we cover: The Declaration of Independence The Constitution The Bill of Rights How Washington Works Supreme Court Cases Every Student Should

Know The Presidency Why Voting Matters The Long Struggle for Civil Rights Immigration: Who Gets to Be an American? You and the Media Could You Pass America's Citizenship Test? The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) If the confusion following the last presidential election is any indication, the average citizen knows precious little about the democratic system and the laws that affect their daily lives. –The Everything American Government Book unravels the complexities of our democracy and provides readers with the knowledge necessary to make the right decisions and take an active role in the management of

their country. From the roots of American government and the challenges that have helped shape it over the years to its current structure and systems, this thoroughly researched work is ideal for anyone brushing up on civics, as well as students of all ages. Readers learn about: The personalities and events that gave rise to our current system The real significance of the Bill of Rights and the Constitution The functions of each branch of government and how they work together Private sector's influence on public policy and decision-making Ways to get involved and make a difference Specially designed to inform and empower the average citizen during this critical election year, The Everything American Government Book provides the keys to understanding the ins and outs of the most powerful democracy in the world. This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In The

Paranoid Style in American Politics, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as “Free Silver and the Mind of 'Coin' Harvey” and “What Happened to the Antitrust Movement?”, “The Paranoid Style in American Politics remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States. Criticizes the way history is presented in current textbooks, and suggests a more accurate approach to teaching American history. In a campaign for state or local office these days, you’re as likely today to hear accusations that an opponent advanced Obamacare or supported

Donald Trump as you are to hear about issues affecting the state or local community. This is because American political behavior has become substantially more nationalized. American voters are far more engaged with and knowledgeable about what’s happening in Washington, DC, than in similar messages whether they are in the South, the Northeast, or the Midwest. Gone are the days when all politics was local. With *The Increasingly United States*, Daniel J. Hopkins explores this trend and its implications for the American political system. The change is significant in part because it works against a key rationale of America’s federalist system, which was built on the assumption that citizens would be more strongly attached to their states and localities. It also has profound implications for how voters are represented. If voters are well informed about state politics, for example, the governor has an incentive to deliver what voters—or at least a pivotal segment of them—want. But if voters are likely to back the

same party in gubernatorial as in presidential elections irrespective of the governor's actions in office, governors may instead come to see their ambitions as tethered more closely to their status in the national party. "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth

and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." Sometimes controversial and always provocative, A HISTORY OF THE AMERICAN PEOPLE is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people. Based on the full edition of American Government: Power and

Purpose, this brief text combines concise and up-to-date coverage of the central topics in American government with compelling critical analysis. Offering an array of learning tools, the 2008 Election Update Edition uses a refined pedagogical apparatus to help students approach politics and government analytically. KEY FEATURES

- o More flexibility to assign supplementary readings. The Brief Tenth edition is the perfect choice for instructors who want the flexibility to assign readings that go beyond the textbook. Access to the Norton American Politics Online Reader is free with each new copy, offering an affordable way to provide students with a range of readings to complement the textbook. Special package prices are also available with Norton's other readers in American government, *The Enduring Debate* and *Faultlines*.
- o More, and more thoughtful, pedagogy than other brief texts. Several helpful features appear in each chapter to help students learn and review. New "Analyzing the

Evidence" units use bold graphics to show students "how we know what we know" about certain political phenomena. "Core of the Analysis" boxes on the first page of every chapter preview the chapter's analysis. "In Brief" boxes are unique to the brief edition and at least one appears in each chapter. The boxes summarize fundamental material in the chapter and have proven invaluable in preparing for exams, according to reviewers. "Key Terms" are boldface in the text and defined in the margin. Numerous figures and tables appear in every chapter. New single-column design is easier to read. Online reader icons next to citations indicate works that are represented in the Norton American Politics Online Reader.

STUDENT RESOURCES The Norton American Politics Online Reader American Government draws on contemporary research and key scholarship to present the field as political scientists understand it today. The Norton American Politics Online Reader includes

over 100 important recent articles and foundational works cited in American Government. Perfect for supplementary reading assignments and special projects, an icon next to the citation in the text indicates that a reading is available in the online reader. Student StudySpace The StudySpace student Web site reinforces the analytical framework of American Government in a proven, task-oriented study plan. Each chapter is arranged according to the effective Organize, Learn, and Connect pedagogy:

- o Organize-This section contains: o Progress Reports to help students organize their study time.
- o Chapter Summaries and Outlines that help students prepare for readings and tests.
- o Links to the ebook, which integrates online review materials with the book.
- o Learn-This section contains: o Diagnostic Quizzes that help students study for midterms and finals.
- o Vocabulary Flashcards that reinforce knowledge of key terms presented in the text.
- o Connect-This section contains: o Politics in the News RSS

Feed-Abi-weekly RSS feed of New York Times articles, annotated by Paul Gronke (Reed College) helps students keep up-to-date with the latest political news.

- o Analyzing the Evidence Exercises-These interactive exercises are based on the new "Analyzing the Evidence" units in the text, which explain the significance of the data and the basic methodology that political scientists use to analyze the data

INSTRUCTOR RESOURCES PowerPoint Lecture Slides, Test Bank and an Instructor's Manual. With Barron's, learning about government studies becomes fun. Painless American Government covers the U.S. Constitution, branches of government, civil liberties and civil rights, and more. Short quizzes are included throughout the book so students can test their learning progress. Geared toward middle school- and high school-level learners, Painless American Government takes a lighthearted, humorous approach to learning about government and politics, and is ideal for

students who find it confusing or who just need a little extra help. Ideal for students learning the basics of government, the author starts with a general description of government and a comparison of democracy as practiced by the founding fathers and how it operates in today's America. Students will also learn about elections and political parties, how public policy is created and shaped, and how they can become more involved in the process of self-government. Americans are losing touch with reality. On virtually every issue, from climate change to immigration, tens of millions of Americans have opinions and beliefs wildly at odds with fact, rendering them unable to think sensibly about politics. In *How America Lost Its Mind*, Thomas E. Patterson explains the rise of a world of "alternative facts" and the slow-motion cultural and political calamity unfolding around us. We don't have to search far for the forces that are misleading us and tearing us apart: politicians for whom division is a strategy; talk show hosts

who have made an industry of outrage; news outlets that wield conflict as a marketing tool; and partisan organizations and foreign agents who spew disinformation to advance a cause, make a buck, or simply amuse themselves. The consequences are severe. *How America Lost Its Mind* maps a political landscape convulsed with distrust, gridlock, brinksmanship, petty feuding, and deceptive messaging. As dire as this picture is, and as unlikely as immediate relief might be, Patterson sees a way forward and underscores its urgency. A call to action, his book encourages us to wrest institutional power from ideologues and disruptors and entrust it to sensible citizens and leaders, to restore our commitment to mutual tolerance and restraint, to cleanse the Internet of fake news and disinformation, and to demand a steady supply of trustworthy and relevant information from our news sources. As philosopher Hannah Arendt wrote decades ago, the rise of demagogues is abetted by "people for whom the distinction between fact and fiction,

true and false, no longer exists.” In *How America Lost Its Mind*, Thomas E. Patterson makes a passionate case for fully and fiercely engaging on the side of truth and mutual respect in our present arms race between fact and fake, unity and division, civility and incivility. This new offering from AP® teacher Karen Waples and college professor Scott Abernathy is tailor-made to help teachers and students transition to the redesigned AP® U. S. Government and Politics course. Carefully aligned to the course framework, this brief book is loaded with instructional tools to help you and your students meet the demands of the new course, such as integrated skills instruction, coverage of required cases and documents, public policy threaded throughout the book, and AP® practice after every chapter and unit, all in a simple organization that will ease your course planning and save you time. We’ve got you covered! With a program specifically tailored for the new AP® framework and exam. With a brief student

edition that students will read and enjoy. With pedagogy and features that prepare students for the AP® exam like no other book on the market. With a teacher edition and resources that save you time in transitioning to the new course. With professional development to help you transition your instruction. Collects quick snapshots of historic and political events from American history from the Battles of Bunkerhill and Yorktown to the great recession. The simplest way to get to grips with the American political system *American Politics For Dummies* is an engaging and accessible guide to the inner workings of the U.S. government, cutting through the political jargon, to give you the facts. The book begins with the basics, including government structure and processes, and later covers current events that make the news. The world of American politics can be bewildering to anyone not born and bred in the U.S.A. This plain-English guide is perfect whether you are a student or simply fascinated by the world's

most powerful democracy. From the electoral process to 'special relationships', you discover all you need to know with American Politics For Dummies.

- The birth of America - find out about the emergence of the US, from the ideas upon which America was founded to the creation of the US Constitution
- Go government - understand the powers of the President, how Congress operates, the function of the Supreme Court and how US laws are created and passed
- Party on - discover the ins and outs of elections and political parties, from the electoral process and the two-party system to the voting behaviour amongst Americans
- One nation, many identities - get to understand the workings of a truly multicultural society
- All the world's a stage - grasp the grand strategy of the US
- Understand why the nation acts as it does in international politics

2014 kicks off the latest round of U.S. Congressional election and marks the beginning the 2016 Presidential election cycle. There will be headlines, there will be

debate and there will be news. If you're looking to keep up and understand it all, American Politics For Dummies is a great place to start. Revised and updated "One of today's most respected journalists, David Rohde takes on one of the country's most toxic conspiracy theories," presenting a "scrupulously reported and even-handed" account of how power and intelligence are exploited in Washington that "goes deep indeed inside America's security state, telling a story that will surprise readers of all political persuasions" (Jane Mayer, author of Dark Money). Donald Trump blamed his 2020 defeat on Democrats and the "deep state"—a supposed secret cabal of Washington insiders that relentlessly encroaches on the individual rights of Americans—for stealing the election and undermining his presidency. Most Americans who supported him agreed. Americans on the left increasingly fear the "military-industrial complex," a faction of generals and defense contractors who they

believe routinely push the country into endless wars. But does the American “deep state” really exist? This question is fundamental to preserving the legitimacy of American democracy, as frustration with and distrust for the government continue to grow. In *Deep* seeks to dispel these pernicious myths through an examination of the FBI, CIA, and Justice Department scandals of the past fifty years from the Church Committee’s exposure of Cold War abuses to the claims and counterclaims of the Trump era and the relentless spread of conspiracy theories online and on air. It exposes the misconduct of Attorney General William Barr; how distrust of the “deep state” undermined the US government response to the COVID-19 pandemic; and the growing discord sowed by the explosion of false information online. It investigates Trump’s quest to discredit government experts, the legislative and judicial branches, and the results of the 2020 election and assume authoritarian power for himself. “The idea of the deep state, Rohde

writes, is inextricably linked to a particular view of presidential power” (Dina Temple-Raston, *Washington Post*). Based on dozens of interviews with career CIA operatives and FBI agents, “*In Deep* is a wholly satisfying read and a necessary one for anyone wanting to understand the forces at play in our government today” (Andrea Bernstein, Peabody Award-winning cohost of the *Trump, Inc.* podcast and author of *American Oligarchs*). *American Government* is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. The images in this textbook are grayscale.

Debates over constitutional rights impact you every day as an American citizen. But do you know what the U.S. Constitution actually says? This accessible guide contains the complete text of the Constitution, with short, descriptive margin notes throughout. Articles and amendments are then analyzed in depth to help you comprehend the basis of democracy. This valuable handbook covers: How the articles and amendments were drafted Insight into the intentions of the creators and the sources they used Controversial interpretations and Supreme Court decisions How the Constitution affects citizens every day The Declaration of Independence, the Articles of Confederation, and unratified Constitutional amendments This book walks you through the history of this essential document and shows how it has guided lawmakers and judges for more than 200 years. This unbiased look at the Constitution will help you feel confident in your knowledge of this all-important document, gain a firmer

understanding of how our government works, and put context around today's most pressing issues. New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five

centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered,

from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it." Debates over constitutional rights impact you every day as an American citizen. But do you know what the U.S. Constitution actually says? This accessible guide contains the complete text of the Constitution, with short, descriptive margin notes throughout. Articles and amendments are then analyzed in depth to help you comprehend the basis of democracy. This valuable handbook covers: How the articles and amendments were drafted Insight into the intentions of the creators and the sources they used Controversial interpretations and Supreme Court decisions How the Constitution affects citizens every day The Declaration of

Independence, the Articles of Confederation, and unratified Constitutional amendments This book walks you through the history of this essential document and shows how it has guided lawmakers and judges for more than 200 years. This unbiased look at the Constitution will help you feel confident in your knowledge of this all-important document, gain a firmer understanding of how our government works, and put context around today's most pressing issues. This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how

early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them. Accessible, authoritative, and entertaining in the signature style of the Complete Idiot's Guide® series, The Complete Idiot's Guide® to U.S. Government and Politics provides a wonderful foundation of knowledge about the way our country's system of government works. Understanding how our government functions and the political forces that influence it is vital for all Americans. At the high school level, U.S. government, the class formerly called civics, has evolved to become a focus of the Advanced Placement test. In 2007, the AP U.S. government and politics exam was

the most widely taken test among high school students on a college track, with over 333,562 students sitting for the 3.5-hour exam. Several strictly test prep books help students prepare for this exam. However, they're limited to the key points covered by the exam and don't afford much information outside the strict curriculum. The Complete Idiot's Guide® to U.S. Government and Politics gives the reader much more. As a comprehensive overview and history of the subject, this book is designed to help anyone interested in learning about our government and the origins of its complex inner workings, our political system, and key elements that have affected our growth as a nation—all while serving as a the best supplementary reading a student can get to help them prepare for the AP exam. Explains how the government works and the functions of its many parts, covering such topics as the system of checks and balances, the Constitution, and the division of state and federal powers. When it comes to

pinpointing the stuff you really need to know, nobody does it better than CliffsNotes. This fast, effective tutorial helps you master core American government concepts - from the First Continental Congress and the Bill of Rights to modern political parties and economic policy - and get the best possible grade. At CliffsNotes, we're dedicated to helping you do your best, no matter how challenging the subject. Our authors are veteran teachers and talented writers who know how to cut to the chase - and zero in on the essential information you need to succeed. All you need to know about elections, politics, and government! Too often, textbooks turn the noteworthy details of government into tedious discourse that would put even the president to sleep. American Government 101 cuts out the boring explanations, and instead provides a hands-on lesson that keeps you engaged as you learn. From the backstory of the Constitution to the institution of the Electoral College, this primer is packed with hundreds of entertaining

tidbits and concepts to help you learn about how the government of the United States actually works. So whether you want to learn about how policies and laws are created, or just want to become a better-informed voter, *American Government 101* has all the answers—even the ones you didn't know you were looking for. “Takes a sophisticated approach to big questions . . . assess[es] the huge role of government in American life in an illuminating way.” —Frances Fox Piven Despite widespread anti-government sentiment in recent decades—including complaints that it does too much and that it doesn't do enough—the fact remains that government has improved the lives of Americans in numerous ways, from providing income, food, education, housing, and healthcare support, to ensuring cleaner air, water, and food, to providing a vast infrastructure upon which economic growth depends. In *What American Government Does*, Stan Luger and Brian Waddell offer a practical understanding of the

scope and function of American governance. They present a historical overview of the development of US governance that is rooted in the theoretical work of Charles Tilly, Karl Polanyi, and Michael Mann. Touching on everything from taxes, welfare, and national and domestic security to the government's regulatory, developmental, and global responsibilities, each chapter covers a main function of American government and explains how it emerged and then evolved over time. Luger and Waddell are careful to identify both the controversies related to what government does and those areas of government that should elicit concern and vigilance. Analyzing the functions of the US government in terms of both a tug-of-war and a collaboration between state and societal forces, they provide a reading of American political development that dispels the myth of a weak, minimal, non-interventionist state, in a major contribution to the scholarly debate on the nature of the American state and

the exercise of power in America. America's leading defender of the public interest and a bestselling historian show us how to prevent the private takeover of our cherished public resources "An essential read for those who want to fight the assault on public goods and the commons." —Naomi Klein As people reach for social justice and better lives, they create public goods—free education, public health, open parks, clean water, and many others—that must be kept out of the market. When private interests take over, they strip public goods of their power to lift people up, creating instead a tool to diminish democracy, further inequality, and separate us from each other. The Privatization of Everything, by the founder of In the Public Interest, an organization dedicated to shared prosperity and the common good, chronicles the efforts to turn our public goods into private profit centers. Ever since Ronald Reagan labeled government a dangerous threat, privatization has touched every aspect of our

lives, from water and trash collection to the justice system and the military. However, citizens can, and are, wresting back what is ours. A Montana city took back its water infrastructure after finding that they could do it better and cheaper. Colorado towns fought back well-funded campaigns to preserve telecom monopolies and hamstring public broadband. A motivated lawyer fought all the way to the Supreme Court after the State of Georgia erected privatized paywalls around its legal code. The Privatization of Everything connects the dots across a broad spectrum of issues and raises larger questions about who controls the public things we all rely on, exposing the hidden crisis of privatization that has been slowly unfolding over the last fifty years and giving us a road map for taking our country back.
