Amy Bloom began to notice changes in her husband, Brian: He retired early from a new job he loved; he withdrew from close friendships; he talked mostly about the past. Suddenly, it seemed there was a glass wall between them, and their long walks and talks stopped. Their world was altered forever when an MRI confirmed what they could no longer ignore: Brian had Alzheimer's disease. Forced to confront the truth of the diagnosis and its impact on the future he had envisioned, Brian was determined to die on his feet, not live on his knees. Supporting each other in their last journey together, Brian and Amy made the unimaginably difficult and painful decision to go to Dignitas, an organization based in Switzerland that empowers a person to end their own life with dignity and peace. In this heartbreaking and surprising memoir, Bloom sheds light on a part of life we so often shy away from discussing—its ending. Written in Bloom's captivating, insightful voice and with her trademark wit and candor, *In Love* is an unforgettable portrait of a beautiful marriage, and a boundary-defying love. Shortlisted for the Rathbones Folio Prize

In 1967, U.S. Air Force fighter pilot James Shively was shot down over North Vietnam. After ejecting from his F-105 Thunderchief aircraft, he landed in a rice paddy and was captured by the North Vietnamese Army. For the next six years, Shively endured brutal treatment at the hands of the enemy in Hanoi prison camps. Back home his girlfriend moved on and married another man. Bound in iron stocks at the Hanoi Hilton, unable to get home to his loved ones, Shively contemplated suicide. Yet somehow he found hope and the will to survive--and he became determined to help his fellow POWs. In a newspaper interview several years after his release, Shively said, "I had the opportunity to be captured, the opportunity to be interrogated, the opportunity to be tortured and the experience of answering questions under torture. It was an extremely humiliating experience. I felt sorry for myself. But I learned the hard way life isn't fair. Life is only what you make of it." Written by Shively's stepdaughter Amy Hawk--whose mother Nancy ultimately reunited with and married Shively in a triumphant love story--and based on extensive audio recordings and Shively's own journals, *Six Years in the Hanoi Hilton* is a haunting, riveting portrayal of life as an American prisoner of war trapped on the other side of the world. *UNDERSTANDING FOOD: PRINCIPLES AND PREPARATION* is ideal for an undergraduate course that covers the basic elements of food preparation, food service and food science. Contemporary and comprehensive in coverage, this best-selling food fundamentals text thoroughly explores the science of food through core material on food selection and evaluation, food safety and food chemistry. Edgar Stoker uses wit and humor to navigate the social complexities of middle-school and vampire culture. From surviving Saturday Vampire Jamborees to school lunches, Edgar tries to win friends in both worlds, but when he's faced with angry vegetable-eaters, his troubles have just begun. The sixth edition of *The Gendered Society* explores current thinking about gender, both inside academia and in our everyday lives. Michael Kimmel challenges the claim that gender is limited to women's experiences--his compelling and balanced study of gender includes both masculine and feminine perspectives. Kimmel makes three bold and persuasive statements about gender. First, he demonstrates that gender differences are often extremely exaggerated; in fact, he argues that men and women have much more in common than we think they do. Kimmel also challenges the pop psychologists who suggest that gender difference is the cause of inequality between the sexes; instead, he reveals that the reverse is true--gender inequality itself is the cause of the differences between men and women. Finally, he illustrates that gender is not merely an element of individual identity, but a socially constructed institutional phenomenon. In *The Gendered Society Reader, Sixth Edition*, coeditors Michael Kimmel and Amy Aronson pull together an array of dynamic voices--both male and female, classic and contemporary--to examine various interpretations of gender. These lively, in-depth readings explore gender discourse over a wide range of disciplines, focusing primarily on two central issues: difference and domination. Carefully balanced to reflect the diversity of its subject, this text addresses provocative and fundamental questions including: \* How are males and females different? \* What do these differences mean? \* How to various cultures and religions interpret gender? \* Why do societies continue to differentiate people on the basis of gender? \* Why is it that almost every known society is based on male domination? Thoroughly updated with rich and timely material, the sixth edition is the perfect complement to Michael Kimmel's textbook, *The Gendered Society, Sixth Edition* (OUP, 2016). Organized both chronologically and thematically, this pre-Confederation reader encourages students to explore Canada's history through authentic primary documents and critical academic articles.
