What do you get when you take a young, naive, and curious teenager, who thought he knew it all, out from the guidance and care of his parents? Trouble! Curiosity brought about rebellion as the mean, unforgiving streets of southeast Houston was too tempting and intriguing to not be a part of. Although Avery was taught correctly and was constantly warned about the dangers that lurked around the corners, he just had to see for himself just what all the fuss was about. The overprotection from his parents was unbearable, and the more that he saw guys from school in and around the neighborhood, the more he thought, "Well, if they can be out there, then I can too. How bad can it be?" It didn't take any time at all before the family-oriented, Christian "church boy image soon turned into a thuggish, hood-boy image. Still unaware of the detrimental impact that went along with this rebellious way of acting, the consequences of wanting this lifestyle came with a devastating price "prison! Here goes a young, lost, and aggravated teenager now about to be plunged into Texas's criminal justice system, having no idea of how to do time or what to expect next. Avery adopted to the street life. Now he reluctantly has to embrace life as a mean, yet fearful convict in prison. God help him! Among the voices that speak to us from Poland today, the most important may be that of Adam Michnik. Michnik now sits in a jail belonging to the totalitarian regime, yet his first concern--and herein lies one of the keys to his thinking, and one should add, to his character--is with the quality of his own conduct, which, together with the conduct of other victims of the present situation, will, he is sure, one day set the tone for whatever political system follows the totalitarian debacle. His essays are the most valuable guide we have to the origins of the revolution, and, more particularly, to its innovative practices. #1 International bestselling author Kent Osborne helps readers transform their lives by inspiring them to live their best life. Do you have the power to change your life? Yes, you can! In his brand new book, Kent Osborne shares his insider secret principles that will empower you to overcome all obstacles, trials, tribulations and road blocks in your life. His breakthrough insights, wisdom and encouragement are carefully illustrated within the pages of from prison to power. The Remarkable Story of How One Man Defied the Odds At 18, Paul Wood thought he had lost everything. He had committed an act he knew would send him to prison for many years. To a young man like Paul, it might as well have been for the rest of his life. Plunged into a nightmarish world of extreme violence, solitary confinement, gang allegiances, drugs, vindictive wardens and regular stabbings, Paul spent the next 11 years confined in some of New Zealand's toughest jails. Based on an account of his experiences he wrote while still inside, How to Escape from Prison chronicles Paul's road to redemption and a new life as a doctor of psychology, helping others strive to fulfil their potential and develop the resilience to flourish, even in adversity. This is a gripping read about a man who sank to the depths of despair, before scaling the heights of true freedom. Paul's transformation is unbelievable. We are sometimes brought up to think a zebra can't change its stripes. Paul Wood's story is

proof that anyone can change. It gives you great courage that you can do anything.' - Sir John Kirwan

"The true stories I've written in this book are my living nightmares. My greatest hope is that the lessons the stories offer will help you make better choices than I did." Stanley "Tookie" Williams, cofounder of the notorious Crips gang, is a death-row inmate. But in his two decades of incarceration, Williams has also become a respected author and activist whose dedication to ending gang warfare in the lives of inner-city children has earned him a 2001 Nobel Peace Prize nomination. In this award-winning book which has drawn praise from educators, government leaders, and families alike Williams describes the brutal reality of being an inmate. He debunks myths of prisons as "gladiator schools" with blunt, riveting stories of overwhelming homesickness, the terror of solitary confinement, and the humiliation of strip-searches. Williams' words are a frank challenge to adolescent readers to educate themselves, make intelligent decisions, and above all, not to follow in his footsteps. A memoir of a decade in prison by a well-educated young addict known as the "Apologetic Bandit" In 2003 Daniel Genis, the son of a famous Soviet émigré writer, broadcaster, and culture critic, was fresh out of NYU when he faced a serious heroin addiction that led him into debt and ultimately crime. After he was arrested for robbing people at knifepoint, he was nicknamed the "Apologetic Bandit" in the press, given his habit of expressing regret to his victims as he took their cash. He was sentenced to twelve years—ten with good behavior, a decade he survived by reading 1,046 books, taking up weightlifting, having philosophical discussions with his fellow inmates, working at a series of prison jobs, and in general observing an existence for which nothing in his life had prepared him. Genis describes in unsparing and vivid detail the realities of daily life in the New York penal system. In his journey from Rikers Island and through a series of upstate institutions, he encounters violence on an almost daily basis, while learning about the social strata of gangs, the "court" system that sets geographic boundaries in prison yards, how sex was obtained, the workings of the black market in drugs and more practical goods, the inventiveness required for everyday tasks such as cooking, and how debilitating solitary confinement actually is—all while trying to preserve his relationship with his wife, whom he recently married. Written with empathy and wit, *Sentence* is a strikingly powerful memoir of the brutalities of prison and how one man survived them, leaving its walls with this book inside him, "one made of pain and fear and laughter and lots of other books." "For facination, influence, inspiration, and controversy, Dietrich Bonhoeffer's *Letters and Papers from Prison* is unmatched by any other book of Christian reflection written in the twentieth century. A Lutheran pastor and theologian, Bonhoeffer spent two years in Nazi prisons before being executed at age thirty-nine for his role in the plot to kill Hitler. Ever since it was published in 1951, *Letters and Papers from Prison* has had a tremendous impact on Christian and secular thought, and has helped establish Bonhoeffer's reputation as one of the most important Protestant thinkers of the twentieth century. In this, the first history of the book's remarkable global career ... writer Martin Marty tells how and why *Letters and Papers from Prison* has been read and used in such dramatically different ways, from the Cold War to today."-- Incarcerated numerous times "for the defense of the gospel" (Phil 1:16), Paul wrote several letters from the confines of prison. *Letters from Prison, Part One* explores the letters of Philippians and Philemon in four sessions, explaining the reason each letter was written and addressing various themes such as joy, unity in Christ, reconciliation, and the close relationship between Paul and his communities. A daring journalist goes behind bars to explore the redemptive power of books with bikers, bank robbers, and gunmen An attack in London left Ann Walmsley unable to walk alone down the street, and shook her belief in the fundamental goodness of people. A few years later, when a friend asked her to participate in a bold new venture in a men's medium security prison, Ann had to weigh her curiosity and desire to be of service against her anxiety and fear. But she signed on, and for eighteen months went to a remote building at Collins Bay, meeting a group of heavily tattooed book club members without the presence of guards or security cameras. There was no wine and cheese, no plush furnishings. But a book club on the inside proved to be a place to share ideas and regain a sense of humanity. For the men, the books were rare prized possessions, and the meetings were an oasis of safety and a respite from isolation in an otherwise hostile environment. Having been judged themselves, they were quick to make judgments about the books they read. As they discussed the obstacles the characters faced, they revealed glimpses of their own struggles that were devastating and comic. From *The Grapes of Wrath* to *The Cellist of Sarajevo*, *Outliers* to *Infidel*, the book discussions became a springboard for frank conversations about loss, anger, redemption, and loneliness. The Prison

Book Club follows six of the book club members, who kept journals at Walmsley's request and participated in candid one-on-one conversations. Graham the biker, Frank the gunman, Ben and Dread the drug dealers, and the robber duo Gaston and Peter come to life as the author reconciles her knowledge of their crimes with the individuals themselves, and follows their lives as they leave prison. And woven throughout is the determined and compassionate Carol Finlay, working tirelessly to expand her program across Canada and into the United States. The books changed the men and the men changed Walmsley, allowing her to move beyond her position as a victim. Given the choice, she'd forsake the company of privileged friends and their comfortable book club to make the two-hour drive to Collins Bay. I fell asleep at the age of 18 and awoke some 23 years later... "How in the hell did I get here?" I asked myself I often wondered, "How did I get myself in this situation?" A situation which there seemed to be no way of escaping.... There I was sitting on a hard steel bunk. The mattress was as thin as a sheet of metal, my pillow laid on my bunk resembling a flimsy thin pancake on a cold unloved plate. Some of us called this torture we slept on every night a "bed," but this thing did no justice as a bed. As I sat there my mind reflected back to the role I played that caused me to become a prisoner in my own mind, as well as a prisoner in the GA Penal Institution. Hold up! Wait a minute; I think I'm jumping ahead of myself a bit. Let me go back to the beginning, maybe you will understand why I decided to write this book. Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is helping restore prisoners' sense of humanity while holding them accountable for their actions. Toews, with years of experience in prison work, shows how these practices can change prison culture and society. Written for an incarcerated audience, and for all those who work with people in prison, this book also clearly outlines the experiences and needs of this under-represented part of our society. A title in The Little Books of Justice and Peacebuilding Series. Can the common criminal get a fresh start? An essential resource for former convicts and their families post-incarceration. The United States has the largest criminal justice system in the world, with currently over 7 million adults and juveniles in jail, prison, or community custody. Because they spend enough time in prison to disrupt their connections to their families and their communities, they are not prepared for the difficult and often life-threatening process of reentry. As a result, the percentage of these people who return to a life of crime and additional prison time escalates each year. Beyond Bars is the most current, practical, and comprehensive guide for ex-convicts and their families about managing a successful reentry into the community and includes: *Tips on how to prepare for release while still in Prison *Ways to deal with family members, especially spouses and children *Finding a job *Money issues such as budgets, bank accounts, taxes, and debt *Avoiding drugs and other illicit activities *Free resources to rely on for support An enraging, necessary look at the private prison system, and a convincing clarion call for prison reform." —NPR.org New York Times Book Review 10 Best Books of 2018 * One of President Barack Obama's favorite books of 2018 * Winner of the 2019 J. Anthony Lukas Book Prize * Winner of the Helen Bernstein Book Award for Excellence in Journalism * Winner of the 2019 RFK Book and Journalism Award * A New York Times Notable Book A ground-breaking and brave inside reckoning with the nexus of prison and profit in America: in one Louisiana prison and over the course of our country's history. In 2014, Shane Bauer was hired for \$9 an hour to work as an entry-level prison guard at a private prison in Winnfield, Louisiana. An award-winning investigative journalist, he used his real name; there was no meaningful background check. Four months later, his employment came to an abrupt end. But he had seen enough, and in short order he wrote an exposé about his experiences that won a National Magazine Award and became the most-read feature in the history of the magazine Mother Jones. Still, there was much more that he needed to say. In American Prison, Bauer weaves a much deeper reckoning with his experiences together with a thoroughly researched history of for-profit prisons in America from their origins in the decades before the Civil War. For, as he soon realized, we can't understand the cruelty of our current system and its place in the larger story of mass incarceration without understanding where it came from. Private prisons became entrenched in the South as part of a systemic effort to keep the African-American labor force in place in the aftermath of slavery, and the echoes of these shameful origins are with us still. The private prison system is deliberately unaccountable to public scrutiny. Private prisons are not incentivized to tend to the health of their inmates, or to feed them well, or to attract and retain a highly-trained prison staff. Though Bauer befriends some of his colleagues and sympathizes with their plight, the chronic dysfunction of their lives

only adds to the prison's sense of chaos. To his horror, Bauer finds himself becoming crueler and more aggressive the longer he works in the prison, and he is far from alone. A blistering indictment of the private prison system, and the powerful forces that drive it, *American Prison* is a necessary human document about the true face of justice in America. *The Untold Story* is a collection of poetry and profiles written by incarcerated youth. Many poets are currently incarcerated in the DC Jail or federal prison; profiles are of returned citizens and their quest for new life. Their work explores themes of parenthood, love, pain, identity, race, and freedom in voices both raw and powerful. "This book is a collection of Leyla Zana's personal letters and statements written from Ankara prison since her arrest and imprisonment by the Turkish security forces in 1994."--BOOK JACKET. That neither racism nor sexism can stop a determined mind, or a heart beating with love for the very body that carries it. It is a lesson for all people, regardless of race or sex; for anyone who has had to rise to a challenge." An authoritative and thought-provoking argument for offering free college in prisons—from the former dean of the Harvard Graduate School of Education. Anthony Cardenas was a stickup artist in the Bronx before spending seventeen years in prison. Today he is a senior manager at a recycling plant in Westchester, New York. He attributes his ability to turn his life around to the college degree he earned in prison. Many college-in-prison graduates achieve similar success and the positive ripple effects for their families and communities, and for the country as a whole, are dramatic. College-in-prison programs have been shown to greatly reduce recidivism. They increase post-prison employment, allowing the formerly incarcerated to better support their families and to reintegrate successfully into their communities. College programs also decrease violence within prisons, improving conditions for both correction officers and the incarcerated. *Liberating Minds* eloquently makes the case for these benefits and also illustrates them through the stories of formerly incarcerated college students. As the country confronts its legacy of over-incarceration, college-in-prison provides a corrective on the path back to a more democratic and humane society. "Lagemann includes intensive research, but her most powerful supporting evidence comes from the anecdotes of former prisoners who have become published poets, social workers, and nonprofit leaders."—Publishers Weekly To many, asylums are a relic of a bygone era. State governments took steps between 1950 and 1990 to minimize the involuntary confinement of people in psychiatric hospitals, and many mental health facilities closed down. Yet, as Anne Parsons reveals, the asylum did not die during deinstitutionalization. Instead, it returned in the modern prison industrial complex as the government shifted to a more punitive, institutional approach to social deviance. Focusing on Pennsylvania, the state that ran one of the largest mental health systems in the country, Parsons tracks how the lack of community-based services, a fear-based politics around mental illness, and the economics of institutions meant that closing mental hospitals fed a cycle of incarceration that became an epidemic. This groundbreaking book recasts the political narrative of the late twentieth century, as Parsons charts how the politics of mass incarceration shaped the deinstitutionalization of psychiatric hospitals and mental health policy making. In doing so, she offers critical insight into how the prison took the place of the asylum in crucial ways, shaping the rise of the prison industrial complex. *Poems from Prison* is about how a man that is used to being on the open road and seeing all the beautiful sights he possibly can. All of a sudden the U.S. Justice Department puts him in a maximum security prison in Maine without being sentenced to a crime. His is locked in a cold, concrete room that is five feet wide and nine feet long. It doesn't even have a window to look out. He is completely shut off from the world. For thirty-one months he thinks his lawyer is fighting to win his case. Three days before the trial is to start, the prosecutor threatens him. He is told that the government is going to arrest his twenty-two year old son if he doesn't plead guilty to all of what is on the indictment. Of course, he takes the plea so they will leave his son alone. To pass as much time as he can, he starts to write poems. The poems are only to get the things happening every day off his mind. Writing got him through fifteen years in prison. Release from prison is a matter of increasing interest throughout Europe. On the one hand, arguments about the need to reduce prison numbers, as well as findings that prisoners can be integrated into society more effectively if they are subject to a period of supervision in the community, have made early release policies attractive to governments and to academic commentators. On the other hand, there are concerns that early release may not be applied fairly to all prisoners. Including contributions from leading subject specialists, this book aims to provide important comparative information on release from prison across Europe and explores

some of the key themes and issues. Part of the focus is on Council of Europe Recommendations and on European Union measures but the main body of the book focuses on country perspectives, providing an invaluable survey of the differing situations in various European countries. The introductory and concluding chapters place the comparative material in a broader perspective. They explain how release policy is related to wider questions about justice and fairness in prison-related decision-making and the changing place of imprisonment in European society. Steve Hopper is a good kid who loves football; and, as he grows up, so does his passion for the sport. High school presents an opportunity for him to fulfill a lifelong dream and play football at the college level. But Hopper shatters this dream in one split second when he finds himself in a fight at a party gone wrong. One swing sends another teen into a coma and sends Hopper to prison for a decade. With nothing but time on his hands, he begins to ask life's big question: "What is my life's purpose?" About that time, God begins to intervene and reveal a new and deeper meaning to his existence—as well as a destiny. The emptiness that had been growing inside him now subsides and even begins to fill up with hope, love, and purpose. By reading Hopper's personal and challenging story, and following his example, others can begin their own journey of discovery. Experience his tears and triumphs, failures and successes, and apply those experiences to your own life as God reveals the answers to your life's greatest questions. Excerpt from *Voices From Prison: Being a Selection of Poetry From Various Prisoners, Written Within the Cell* The object of this work is to present a volume of Poetry written within the prison. During the labor of conducting a periodical, several valuable pieces came into our possession, written by the inmates of our penitentiary, some few of which have hitherto appeared. In looking over the pages of history we soon discovered that a volume could be prepared for the press. Undoubtedly a much larger work could in time be prepared. The collection will give the reader a view of the workings of the human soul when the outward world is shut out. Between 1975 and 2007, the American incarceration rate increased nearly fivefold, a historic increase that puts the United States in a league of its own among advanced economies. We incarcerate more people today than we ever have, and we stand out as the nation that most frequently uses incarceration to punish those who break the law. What factors explain the dramatic rise in incarceration rates in such a short period of time? In *Why Are So Many Americans in Prison?* Steven Raphael and Michael A. Stoll analyze the shocking expansion of America's prison system and illustrate the pressing need to rethink mass incarceration in this country. Raphael and Stoll carefully evaluate changes in crime patterns, enforcement practices and sentencing laws to reach a sobering conclusion: So many Americans are in prison today because we have chosen, through our public policies, to put them there. They dispel the notion that a rise in crime rates fueled the incarceration surge; in fact, crime rates have steadily declined to all-time lows. There is also little evidence for other factors commonly offered to explain the prison boom, such as the deinstitutionalization of the mentally ill since the 1950s, changing demographics, or the crack-cocaine epidemic. By contrast, Raphael and Stoll demonstrate that legislative changes to a relatively small set of sentencing policies explain nearly all prison growth since the 1980s. So-called tough on crime laws, including mandatory minimum penalties and repeat offender statutes, have increased the propensity to punish more offenders with lengthier prison sentences. Raphael and Stoll argue that the high-incarceration regime has inflicted broad social costs, particularly among minority communities, who form a disproportionate share of the incarcerated population. *Why Are So Many Americans in Prison?* ends with a powerful plea to consider alternative crime control strategies, such as expanded policing, drug court programs, and sentencing law reform, which together can end our addiction to incarceration and still preserve public safety. As states confront the budgetary and social costs of the incarceration boom, *Why Are So Many Americans in Prison?* provides a revealing and accessible guide to the policies that created the era of mass incarceration and what we can do now to end it. The subject of juvenile detention is a major issue for Canadian and U.S. societies, and especially for teens. This book

looks at juvenile detention: beginning with the environments that often produce troubled teens, to the legal process of the juvenile courts, to the varieties of detention arrangements and daily life in a juvenile detention facility. The book does not shy away from hard questions: are teen delinquents criminals, victims, or both? Should society punish or rehabilitate? The book offers multiple perspectives on difficult issues, considering both statistics and life stories. *Youth in Prison* is valuable reading for all concerned with juvenile crime, detention, and the future of troubled young people's lives. Over the years, American colleges and universities have made various efforts to provide prisoners with access to education. However, few of these outreach programs presume that incarcerated men and women can rise to the challenge of a truly rigorous college curriculum. The Bard Prison Initiative is different. College in Prison chronicles how, since 2001, Bard College has provided hundreds of incarcerated men and women across the country access to a high-quality liberal arts education. Earning degrees in subjects ranging from Mandarin to advanced mathematics, graduates have, upon release, gone on to rewarding careers and elite graduate and professional programs. Yet this is more than just a story of exceptional individuals triumphing against the odds. It is a study in how the liberal arts can alter the landscape of some of our most important public institutions giving people from all walks of life a chance to enrich their minds and expand their opportunities. Drawing on fifteen years of experience as a director of and teacher within the Bard Prison Initiative, Daniel Karpowitz tells the story of BPI's development from a small pilot project to a nationwide network. At the same time, he recounts dramatic scenes from in and around college-in-prison classrooms pinpointing the contested meanings that emerge in moments of highly-charged reading, writing, and public speaking. Through examining the transformative encounter between two characteristically American institutions—the undergraduate college and the modern penitentiary—College in Prison makes a powerful case for why liberal arts education is still vital to the future of democracy in the United States. Despite Dietrich Bonhoeffer's earlier theological achievements and writings, it was his correspondence and notes from prison that electrified the postwar world six years after his death in 1945. The materials gathered and selected by his friend Eberhard Bethge in *Letters and Papers from Prison* not only brought Bonhoeffer to a wide and appreciative readership, especially in North America, they also introduced to a broad readership his novel and exciting ideas of religionless Christianity, his open and honest theological appraisal of Christian doctrines, and his sturdy, if sorely tried, faith in face of uncertainty and doubt. This splendid volume, in many ways the capstone of the Dietrich Bonhoeffer Works, is the first unabridged collection of Bonhoeffer's 1943-1945 prison letters and theological writings. Here are over 200 documents that include extensive correspondence with his family and Eberhard Bethge (much of it in English for the first time), as well as his theological notes, and his prison poems. The volume offers an illuminating introduction by editor John de Gruchy and an historical Afterword by the editors of the original German volume: Christian Gremmels, Eberhard Bethge, and Renate Bethge. *Parenting From Prison* was written for the incarcerated parent who is seeking to establish or grow a quality relationship with their child. *Parenting from Prison* is a unique experience that requires a parent to adapt their traditional parenting roles and responsibilities, to the prison environment and the limitations that come with it. Having an incarcerated parent creates a unique situation for the child; they struggle to progress along a typical emotional development path. This struggle occurs because the child is exposed to new, additional or more powerful feelings, ones that can weaken their overall ability to cope and progress emotionally. Your child could be experiencing anger, rage, abandonment, rejection, hopelessness, powerlessness, loss, sadness, fear, guilt, disbelief, anxiety or confusion. It is vitally important that you help your child to understand and work through the feelings that they are having. There is only one way for you to do this with your child - it is to stay connected to them in a healthy, positive and emotionally supportive way. *Parenting From Prison* is a hands-on, practical guide that walks an incarcerated parent through the preparation and process of becoming a vital, positive, encouraging parent to their child. The book discusses A Child's Development Needs, Preparing to Parent From Prison, What a Child Asks, Visiting with Your Child and contains a sample parenting plan and activities that will help you to maintain a closer connection to their child. As an incarcerated parent, you can have a strong relationship with your child, despite the challenges you both may face. *Parenting From Prison* shows you how to provide your child with the love, emotional support, and encouragement that are of critical importance to them. It will also bring you a renewed sense of hope and strength. Paperback for

Electronic monitoring. Locked-down drug treatment centers. House arrest. Mandated psychiatric treatment. Data-driven surveillance. Extended probation. These are some of the key alternatives held up as cost-effective substitutes for jails and prisons. But many of these so-called reforms actually widen the net, weaving in new strands of punishment and control, and bringing new populations, who would not otherwise have been subject to imprisonment, under physical control by the state. As mainstream public opinion has begun to turn against mass incarceration, political figures on both sides of the spectrum are pushing for reform. But—though they're promoted as steps to confront high rates of imprisonment—many of these measures are transforming our homes and communities into prisons instead. In *Prison by Any Other Name*, activist journalists Maya Schenwar and Victoria Law reveal the way the kinder, gentler narrative of reform can obscure agendas of social control and challenge us to question the ways we replicate the status quo when pursuing change. A foreword by Michelle Alexander situates the book in the context of criminal justice reform conversations. Finally, the book offers a bolder vision for truly alternative justice practices. Follows two young boys as they visit their dad in prison for the first time and explains the emotions they feel and the situations they encounter during their visit. Written by incarcerated women, these incredibly personal, surprisingly honest letters shed light on their lives, their crimes - and the mitigating circumstances. Author Jennifer Furio, a prison reform activist, subtly reveals the biases if the criminal ju
