Even Mozart had to learn how to play the piano. This collection of easy works includes pieces composed by both young Mozart and by his father, for his piano lessons. Including pieces from the volume Notebook for Wolfgang alongside popular pieces by Mozart such as Ah vous dirai-je Maman (variations) and themes from Sonata in A major KV 331 and Sonata in C major KV 545. All pieces can be played with or without pedal. An imagination-inspiring story of how Fred Frostovski, son of Dracon, the much-feared king of the vampires, has to go about restoring his race to the top of the food chain after a rather difficult start to life. Dracon's brother, Amadeus, plans to usurp the crown has backfired, as Amadeus himself is betrayed somewhat by the evil Ice Queen he had been colluding with. Little did he know the Ice Queen had her own plans to use his betrayal to wipe out the much-feared vampire race and then enslave the traitorous brother to use as her own personal pet. The Ice Queen's evil plan was almost perfect until unbeknown to everybody involved, Fred Frostovski managed to make it out of the carnage alive, albeit in a slightly different state. And he is hellbent on revenge. Born in Salzburg in 1756, Wolfgang Amadeus Mozart was one of the most prolific musicians that ever lived. Here, the author Judith Grohmann takes us behind the curtain of the career to reveal the real personality of the composer, whose influence on the world of music is still profound today. A child prodigy, he played several instruments from a tender age and eventually created his own style by blending the traditional with the contemporary. He was beloved and hyped, but was also a multi-layered and controversial personality: on one side a

provocative influencer, hyperactive and a driven man, a bon vivant who loved luxury, but on the other side, a man who was drawn to the Masonic mindset of brotherhood, freedom, tolerance and humanity, with frequent and extreme mood changes and a penchant for word games and a peculiar sense of humor. In his short life, Mozart anticipated almost everything that makes a star today: international tours, hysterical fans, success, big hits, sex and addiction. He wrote obsessively and composed more than 600 different operas, sonatas, masses, concerts and symphonies. As far as we know today, Mozart's oeuvre contains around 1,060 titles. Knighted by the Pope aged just 14 (the greatest award for any artist at the time), today he might have been showered with Grammys and platinum discs in recognition of his status as the original 'King of Pop'. The barrier has kept the man-eating mites out of the valley for 200 years and continues to protect what is left of humanity. In exchange for maintaining this barrier, the sorcerer from the mountain asks for only one thing-children. With yet another child sacrificed to fates unknown, some question the motives and the authority of the ageless man who hides away in his tower. Nora Vanderwilde's curiosity of the sorcerer and the world beyond the walls lies dormant until a mute boy tumbles into the valley, having fled a terrible, fire-spitting monster. Believing until now that no human could survive outside the valley, Nora agrees to hide the boy, and their search for answers begins. The questions Nora has held in her heart all her life are suddenly dwarfed by greater truths. Mites aren't the only threat outside the barrier, and with a hole in the shield, even the sorcerer fears what may have crawled in. Savoy and its Alps were for seven centuries an independent state at the centre of Europe, separating France from the patchwork of principalities that made up Italy. Merchants, clerics, pilgrims, diplomats as well as privileged young Englishmen on the Grand Tour, regularly used the Alpine passes. But it was the need of European armies to cross Savoy which made its rulers powerful as the Gatekeepers of the Alps. It allowed the Duchy of Savoy to prosper and survive when all the other great duchies of Burgundy, Milan, Provence and Dauphin' disappeared at the end of the fifteenth century. Savoy successfully resisted the pressure from Protestant Geneva on its doorstep, but was the first country to succumb to the French Revolution. By judiciously switching alliances during the European wars beginning at the end of the seventeenth century, the House of Savoy finally gained a crown. The conspiracy concocted by Napoleon III and Cavour led directly to the unification of Italy and the definitive annexation of Savoy to France in 1860. Simultaneously, the Alps that had been the source of Savoy's power, now became the source of its prosperity as a centre of tourism. Okiki was captured, chained, shackled, manacled, and whisked away from his ancestral village on the day one that his life ambition would have been fulfilled. He was cargo to servitude across the Atlantic Ocean. He escaped death by a whisker when he took part in the insurrection that attempted to set slaves free from chains during the perilous middle passage voyage that took him to a sugar plantation in Pernambuco. Soares was one of the slaves that trekked 1,870 kilometers to Calabouco from Pernambuco, both in Brazil, under grueling and callous

condition after his masters decided to relocate to a bigger plantation far away from where they were to continue the inglorious trade. Later, he became an inheritance of his new slave master, who took him to Saint Michael, Barbados, in the Caribbean and finally to Charleston, South Carolina, USA, by his master, who appointed him valet and, subsequently, butler. Jackson Fey, a Yoruba slave enjoyed the largesse of freedom when the dastardly act was abolished. He chronicled personal events and happenings around him during his captivity in major slave plantations and documented them in a manuscript, where he described slavery as days of darkness and gloom, days of clouds and of thick darkness, as morning spread upon the mountains. This he also summarized in his native dialect, as Iparun Nla literary means the greatest destruction the world has ever witnessed in Yoruba. Steve McLaren, a Scottish scholar, was privileged to lay hands on the manuscript. He had a personal interaction and shared in the grief and feelings of what enslaved Africans went through, having been unsatisfied with the available materials a popular librarian offered him and the information he gathered personally on plantations. With misty eyes and pangs of horror, he recalled how the entire black African race was almost annihilated by European slave merchants, and Africans had to endure years of contempt and obloquy; some of those acts were rendered in mnemonic interjections captured by his feelings, emotionally delivered from the thought of victims. Albert McLaren carried on with the promise his great-grandfather gave to Jackson Fey, a freed slave, to continue activism against any form of slavery. He chronicled the history of sexual slavery, exposing the technicality of the traffickers' ploy, and shared individual experiences of some captors, proffering solutions on how the world may conquer or mitigate sexual slavery and human trafficking. During one of his presentations, Linda Rowenski, sold into slavery by a family friend, gave her livid and loathsome testament in the hand of her ogre exactor, who the arm of the law caught up with in unprecedented vagaries. Elle Burton is an ordinary kid...or so she thinks. On her tenth birthday, she encounters Eunie Mae, a tiny, fairylike being who comes from a world called Fiori. Other than some children under the age of eight, the only human beings who can see Fiorins are guides-people who have been chosen to help protect the children of Earth. Being a guide seems like the opportunity of a lifetime. Elle has always loved helping others, and now she'll have magical assistance. But not everybody wants her to succeed. There are evil forces who do everything in their power to keep the guides from offering support to those in need. Can Elle be brave enough to oppose them? The bestselling author of "To Charm a Prince" returns with this breathtaking tale of intrigue, passion, and incomparable romance, as a merchant's daughter and a prince risk everything for love in Regency England. Men are usually the heroes of Western stories, but women also played a crucial role in developing the American frontier, and their stories have rarely been told. This anthology of biographical essays on women promises new insight into gender in the 19C American West. The women featured include Asian Americans, African-Americans and Native American women, as well as their white counterparts. The original essays offer observations about gender and sexual violence, the subordinate status of women of color, their perseverance and influence in changing that status, a look at the gendered religious legacy that shaped Western Catholicism, and women in the urban and rural, industrial and agricultural West. Ben is a mouse, born about two thousand six hundred years ago and unwillingly blessed by a witch doctor after saving the village's protector. Now he cannot die. The stories hint at (and sometimes show directly) some dark aspects of this future, though many are fairly light in tone. I particularly liked Tansy Rayner Roberts's "Prosperine When It Sizzles", featuring the very popular character La Duchesse and her assistant M. Pepin - about whom we learn some secrets as he meets an old offworld acquaintance while the two of them try to rescue a prominent politician's children from some unfortunate choices in entertainment; and Sylvia Kelso's "The Sharp Shooter", in which the title character comes to a remote farm to help eliminate a dangerous beast. Rich Horton, Locus June 2009 While [the stories] share the same setting, each explores different aspects, and the result is a surprising variety...these were all strong offerings, and set in an inspired order, to gently introduce readers to the world's quirks before they become important subtleties in later tales. SF Book Reviews, July 2009 ... marvel that a story set a thousand years in the future, at a remove of many light years from Earth, and seeking to recapture an era two or three centuries before our own, can hold up such a mirror to our own mode of existence. Simon Petrie, Specusphere, September 2009 When is it right to want what is wrong? When morality and emotion collide, which will be the victor? Angel De Winter has her life planned out. She will Qualify and marry the boy she loves. When greed and fate converge, forever altering the course of her life, Angel finds out what it is to fall, and not care whether she survives.
