Power, Philosophy and Egalitarianism Oct 17 2022 In this book, Robert C. Smith presents a philosophical and empirical examination on the subordination of women and blacks in the United States. Comparing liberalism—specifically the major social contract philosophies—and Marxism on the nature of the subordination of blacks and women and their proposals, if any, for women's and black liberation, Smith

argues that sexual and racial equalitarianism in the United States is about politics and power. He begins with a discussion of the multiple meanings of politics and its relationship to power, and an analysis of nine power bases blacks and women should acquire and manipulate in order to advance a moral and substantive equalitarianism. These power bases include money, knowledge (including technology and information), religion, morality, authority, size/solidarity, charisma, violence and status. Smith concludes by making a moral case for racial and sexual equalitarianism and advocates for black leadership to use the power bases available to it to make reparations for the civil rights issue of the 21st century. *Power, Philosophy and Egalitarianism* is an essential read for all those interested in race, women and politics today.

The Silencing Aug 23 2020 Lifelong liberal Kirsten Powers blasts the Left's forced march towards conformity in an exposé of the illiberal war on free speech. No longer champions of tolerance and free speech, the "illiberal Left" now viciously attacks and silences anyone with alternative points of view. Powers asks, "What ever happened to free speech in America?"

American Politics and the African American Quest for Universal Freedom Nov 18 2022 This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had -- and continue to have -- on American politics. Through the use of two interrelated themes -- the idea of universal freedom and the concept of minority-majority coalitions -- the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans. New to the Eighth Edition A new co-author, Sherri L. Wallace, is renowned for her teaching, scholarship, and participation in APSA's American government textbook assessment for coverage of

race, ethnicity, and gender. Offers a new Media Integration Guide for the first time. Provides the first overall assessment of the Obama administration in relation to domestic and foreign policy and racial politics in particular. Updated through the 2016 elections, connecting the Obama years with the new administration. Looks at candidates Hillary Clinton and Ben Carson in particular in relation to the themes of the book. Adds a new section on State Politics and Elections. Discusses the way in which race contributed to the polarization of American politics; the connections to the Tea Party; and the Obama Presidency and the 2016 presidential campaign as the most polarized since the advent of polling. Previews the impact of the Trump Administration on matters of race and ethnicity.

The 8th Habit Feb 15 2020 In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

Catholicism and American Freedom Mar 30 2021 For two centuries, Catholicism has played a profound and largely unexamined role in America's political and intellectual life. Emphasizing the community over the individual, Catholics have alternately challenged and supported American liberals on a variety of controversial issues, including slavery, public education, economic reform, the movies, contraception, the nuclear arms race and abortion. The story of Catholicism is also international, as Catholics and non-Catholics reacted to people, ideas and events abroad, from the 1848 revolutions to the rise of European fascism in the 1930s and the Second Vatican Council in the 1960s. This history of both Catholicism and anti-Catholicism puts the sexual-abuse scandal in the Church of the early 21st century and the media's response into a larger context.

Freedom for the Thought That We Hate Jul 14 2022 More than any other people on earth, we Americans are free to say and write what we think. The press can air the secrets of government, the corporate boardroom, or the bedroom with little fear of punishment or penalty. This extraordinary freedom results not from America's culture of tolerance, but from fourteen words in the constitution: the free expression clauses of the First Amendment. In *Freedom for the Thought That We Hate*, two-time Pulitzer Prize-winner Anthony Lewis describes how our free-speech rights were created in five distinct areas—political speech, artistic expression, libel, commercial speech, and unusual forms of expression such as T-shirts and campaign spending. It is a story of hard choices, heroic judges, and the fascinating and eccentric defendants who forced the legal system to come face to face with one of America's great founding ideas.

DICTIONARY OF INTERNATIONAL TRADE 8th Edition May 12 2022

A Fragile Freedom Jan 08 2022 This book is the first to chronicle the lives of African American women in the urban north during the early years of the republic. *A Fragile Freedom* investigates how African American women in Philadelphia journeyed from enslavement to the precarious status of "free persons" in the decades leading up to the Civil War and examines comparable developments in the cities of New York and Boston. Erica Armstrong Dunbar argues that early nineteenth-century Philadelphia, where most African Americans were free, enacted a kind of rehearsal for the national emancipation that followed in the post-Civil War years. She explores the lives of the "regular" women of antebellum Philadelphia, the free black institutions that took root there, and the previously unrecognized importance of African American women to the history of American cities.

Free to Learn May 20 2020 Our children spend their days being passively instructed, and made to sit still and take tests—often against their will. We call this imprisonment schooling, yet wonder why kids become bored and misbehave. Even outside of school children today seldom play and explore without adult supervision, and are afforded few opportunities to control their own lives. The result: anxious, unfocused children who see schooling—and life—as a series of hoops to struggle through. In *Free to Learn*, developmental psychologist Peter Gray argues that our children, if free to pursue their own interests through play, will not only learn all they need to know, but will do so with energy and passion. Children come into this world burning to learn, equipped with the curiosity, playfulness, and sociability to direct their own education. Yet we have squelched such instincts in a school model originally developed to indoctrinate, not to promote intellectual growth. To foster children who will thrive in today's constantly changing world, we must entrust them to steer their own learning and development. Drawing on evidence from anthropology, psychology, and history, Gray demonstrates that free play is the

primary means by which children learn to control their lives, solve problems, get along with peers, and become emotionally resilient. This capacity to learn through play evolved long ago, in hunter-gatherer bands where children acquired the skills of the culture through their own initiatives. And these instincts still operate remarkably well today, as studies at alternative, democratically administered schools show. When children are in charge of their own education, they learn better—and at lower cost than the traditional model of coercive schooling. A brave, counterintuitive proposal for freeing our children from the shackles of the curiosity-killing institution we call school, *Free to Learn* suggests that it's time to stop asking what's wrong with our children, and start asking what's wrong with the system. It shows how we can act—both as parents and as members of society—to improve children's lives and promote their happiness and learning.

Stealing Freedom Oct 05 2021 Twelve-year-old Ann Maria Weems works from sunup to sundown, wraps rags around her feet in the winter, and must do whatever her master or mistress orders—but she has something that many plantation slaves don't have. She has her wonderful family around her. To Ann, her teasing brothers, her older sister, and her protective and loving parents are everything. And then one day, they are gone. Separated from her family by her master and shipped off as a housemaid, Ann learns something about independence and about love before the opportunity for escape arrives. A white man risks his life for Ann, cuts her hair short, dresses her like a boy, and launches her on her journey on the Underground Railroad to Canada, her family, and finally to freedom. Until she was a teenager, Ann Maria Weems lived in the mid-1800s near the author's home in Maryland. This fictionalized account of her extraordinary life is ideal for students, teachers, and parents hungry for interesting and informative reading in African-American history and the Underground Railroad.

State of the Union Addresses Oct 13 2019 The 1934 State of the Union Address was given by the 32nd president of the United States, Franklin D. Roosevelt. It was the first State of the Union address to be given in January. Excerpt: "Now that we are definitely in the process of recovery, lines have been rightly drawn between those to whom this recovery means a return to old methods—and the number of these people is small—and those for whom recovery means a reform of many old methods, a permanent readjustment of many of our ways of thinking and therefore of many of our social and economic arrangements... A Question of Freedom Mar 10 2022 The story of the longest and most complex legal challenge to slavery in American history For over seventy years and five generations, the enslaved families of Prince George's County, Maryland, filed hundreds of suits for their freedom against a powerful circle of slaveholders, taking their cause all the way to the Supreme Court. Between 1787 and 1861, these lawsuits challenged the legitimacy of slavery in American law and put slavery on trial in the nation's capital. Piecing together evidence once dismissed in court and buried in the archives, William Thomas tells an intricate and intensely human story of the enslaved families (the Butlers, Queens, Mahoneys, and others), their lawyers (among them a young Francis Scott Key), and the slaveholders who fought to defend slavery, beginning with the Jesuit priests who held some of the largest plantations in the nation and founded a college at Georgetown. *A Question of Freedom* asks us to reckon with the moral problem of slavery and its legacies in the present day.

Who's Running America? Jan 28 2021 A classic of American government, *Who's Running America?* continues to demonstrate how power is concentrated in large institutions no matter who inhabits the White House. The eighth edition of this best-selling text focuses on the Obama administration and the ways in which it is different from but also similar to administrations that have come before. Based on years of exhaustive data compilation and analysis, *Who's Running America?* explores the influence and impact of governmental leaders, corporate officials, and other elites both inside and outside the United States. Employing an oligarchic model of national policymaking, Tom Dye doesn't just lay out theory and data. He very consciously "names names" in describing the people who inhabit the White House, the Cabinet, the leaders of Congress, members of the Supreme Court, as well as the board rooms of the nation's largest corporations and banks including leading media lights as well as "fat cat" political contributors. Dye argues that big institutions run America, but also that these institutions are made up of real people. *Who's Running America?* puts the flesh and bones on the statistics and delivers the inside scoop on the Obama reign.
