Authors Kenneth Miller and Joseph Levine continue to set the standard for clear, accessible writing and up-to-date content that engages student interest. Prentice Hall Biology utilizes a student-friendly approach that provides a powerful framework for connecting the key concepts a biology. Students explore concepts through engaging narrative, frequent use of analogies, familiar examples, and clear and instructional graphics. Whether using the text alone or in tandem with exceptional ancillaries and technology, teachers can meet the needs of every student at every learning level. Research on small groups is highly diverse because investigators who study such groups vary in their disciplinary identifications, theoretical interests, and methodological preferences. The goal of this volume is to capture that diversity, and thereby convey the breadth and excitement of small group research by acquainting students with work on five fundamental aspects of groups. The volume also includes an introductory chapter by the editors which provides an overview of the history of and current state-of-the-art in the field. Together with introductions to each section, discussion questions and suggestions for further reading, make the volume ideal reading for senior undergraduate and graduate students interested in group dynamics. A great option for low-level and inclusion classrooms, with digital support on Biology.com. Authors Ken Miller and Joe Levine deliver the same trusted, relevant content in more accessible ways! Written at a lower grade level with a reduced page count, the

text offers additional embedded reading support to make biology come alive for struggling learners. Justin 'Wilder' Miller is a country boy biker with a smile and charm no woman can resist. His word is his bond. He steps up for those he loves and has the patience of a saint. However, he could throttle Scarlett whenever she argues with him, which is all the time. Scarlett McKenzie is wild and untameable. Her walls are high, her appreciation for people is low. She says it like it is and has zero patience for drama. She wants to stab Wilder

every. day. of. the. week. Wilder and Scarlett are meant to be together. Everyone knows that. Everyone except them. Wilder is written as a standalone. You don't have to read the other books in this series to enjoy this one. When geeky middle-schooler B.J. Levine moves from Cleveland to New York City, he discovers his true purpose in life--to become a rock god. But in order to realize his destiny, he will have to battle disapproving parents, a mysterious group of middle-aged bikers, and his own apparent lack of musical talent. Prentice Hall Biology utilizes a student-friendly approach that provides a powerful framework for connecting the key concepts of biology. New BIG IDEAs help all students focus on the most important concepts.
