Born out of the popular blog Kale & Caramel,

this sumptuously photographed and beautifully written cookbook presents eighty recipes for delicious vegan and vegetarian dishes featuring herbs and flowers, as well as luxurious do-it-yourself beauty products. Plant-whisperer, writer, and photographer Lily Diamond believes that herbs and flowers have the power to nourish inside and out. "Lily's deep connection to nature is beautifully woven throughout this personal collection of recipes," says award-winning vegetarian chef Amy Chaplin. Each chapter celebrates an aromatic herb or flower, including basil, cilantro, fennel, mint, oregano, rosemary, sage, thyme, lavender, jasmine, rose, and orange blossom. Mollie Katzen, author of the beloved Moosewood Cookbook, calls the book "a gift, articulated through a poetic voice, original and bold." The recipes tell a coming-of-age story through Lily's kinship with plants, from a sun-drenched Maui childhood to healing from heartbreak and her mother's death. With bright flavors, gorgeous scents, evocative stories, and more than one hundred photographs, Kale & Caramel creates a lush garden of experience open to harvest year

popsicle cookbook A leading childhood nutrition researcher and an experienced public health educator explain the hidden danger sugar poses to a child's development and health and offer parents an essential 7- and 28-day "sugarproof" program. Most of us know that sugar can wreak havoc on adult bodies, but few realize how uniquely harmful it is to the growing livers, hearts, and brains of children. And the damage can begin early in life. In his research on the effects of sugar on kids' present and future health, USC Professor of Pediatrics and Program Director for Diabetes and Obesity at Children's Hospital Los Angeles Michael Goran has found that too much sugar doesn't just cause childhood obesity, it can cause health issues in kids who are not overweight too, including fatty liver disease, prediabetes, and elevated risk for eventual heart disease. And, it is a likely culprit in the behavioral, emotional, and learning problems that many children struggle with every day. In a groundbreaking study, Goran's team conducted a detailed analysis of the sugary products that kids love and found that these yogurts, cereals, sodas, and juices often had more sugar than advertised and also contained different types of sugar than were being disclosed. Today's children are not just consuming more sugar than ever, but they are consuming sugars that are particularly harmful to them--and their parents don't even know it. The news is dire, but there is also plenty of hope. We can prevent, address, and even in many cases

reverse the effects of too much sugar. In this guide to "Sugarproof" kids, Dr. Goran and co-author Dr. Emily Ventura, an expert in nutrition education and recipe development, bust myths about the various types of sugars and sweeteners, help families identify sneaky sources of sugar in their diets, and suggest realistic, family-based solutions to reduce sugar consumption and therefore protect kids. Their unique "Sugarproof" approach teaches parents to raise informed and empowered kids who can set their own healthy limits without feeling restricted. With a 7- and 28-day challenge to help families right-size sugar in their diets, along with more than 35 recipes all without added sugars, everyone can give their children a healthy new start to life. Enjoy all of your favorite ice creams — without the dairy! In this Storey BASICS® guide, Nicole Weston shows you how to make vegan "ice creams" right at home, with soy, almond, or coconut milk. Fill your bowl with classics like vanilla, chocolate, and strawberry, or get creative with flavors like chai tea, peanut butter and banana, and coconut-raspberry-lime. Weston also includes recipes for vegan sorbets, granitas, pops, and even vegan cookies for making dairy-free ice cream sandwiches.
