Why I Am So Proud to Be a Black Man Apr 11 2022 In the beginning, when God created the black man, He gave all his wisdom to his first creations without boundaries and fears. Unfortunately, for far too long, black men have been portrayed negatively in our society and by the daily rhetoric that surrounds us. In their comprehensive study compiled with facts, stories, and historical experiences, husband and wife team Mr. Michael and Ms. C illustrate to all black men that they should no longer feel degraded, but instead be bursting with pride about their heritage. Beginning with essays on life in Africa and the movement of the black man to the United States, Mr. Michael and Ms. C transition into issues concerning the contemporary African American community, providing a glimpse into the truth they hope will help black men gain a clearer vision of their race, others, and our planet. By encouraging black men to face racial hatred and demand respect, Mr. Michael and Ms. C lay a foundation intended to help all black men find the purpose of their existence. Also included are biographies of famous black men who overcame obstacles and changed the world. *Why I Am So Proud to Be a Black Man* shares the knowledge that can open the eyes, minds, and hearts of the African American community, enabling all to embrace God's first, primal purpose.

Gender Antagonism and Social Change in a Patriarchal Community Sep 16 2022 This study is an analysis of social anthropology and provides information on interaction and conflict in African society. Its findings are based on material obtained through personal interviews and by detailed observation of the lives of women and their husbands. The author sets out the nature, method and aims of these social and anthropological investigations. He gives details of the inequalities, conflicts, hostilities and aggression, within the gender relationship, by means of which the male community seeks to extend its influence far beyond the domestic arena. Also underlined is the role of women as mothers in the maintenance of the family unit and the acceptance of domestic responsibility. The book also analyses in-depth treatment of socio-economic change, gender values and social norms as well as Iraqw patriarchal ideology, religious thoughts and cultural values within a changing context. Consideration is also given to Iraqw rituals, marriage and domestic mores. The author shows how all these aspects can be understood through a realisation of the struggle for power existing between the heads of the households and their dependants. The reader is thus given an overall picture of the changes taking place in modern Iraqw society and the effect these changes have on male-female relationships within and without the family circle. Also discussed is the question of family and interethnic conflict management.

Equally important, what does it take to be happy as a scientist? Drawing on thirty years of experience, Philip Schwartzkroin offers the budding scientist an invaluable glimpse into the

day-to-day life of the researcher, filling a huge hole in the education of most would-be scientists--whether undergraduates or high school seniors. As Schwartzkroin points out, many of the most important things researchers learn as they hone their craft are not written down anywhere. And many of these insights come as a surprise to the naïve and well-meaning student who somehow believes that "doing research" is an occupation that is substantially different from doing a job in "the real world." This book looks at the "job" of science. Starting with suggestions about how to decide whether you'd want to pursue such a career (and if so, how to get started), the book works through some of the obvious topics relevant to a research profession--how to write a paper, give a talk, construct a grant proposal. It also examines less obvious topics that are generally incorporated into a research education only by trial and error--"thinking" like a scientist, negotiating scientific politics, dealing with research ethics, and understanding social interactions. And the book includes many "real-life situations" that may confront the young scientist, along with the author's advice on how to solve these problems. Based on the author's long career in the laboratory and his rich experience mentoring trainees, *So You Want to be a Scientist* provides information and insights that will help the young scientist make better decisions and choices. It will also be useful to teachers, counselors, and parents for its realistic look at the demands and requirements for success in a research career.

A War that Can't Be Won Jul 14 2022 More than forty years have passed since President Richard Nixon described illegal drugs as "public enemy number one" and declared a "War on Drugs." Recently the United Nations Global Commission on Drug Policy declared that "the global war on drugs has failed with devastating consequences for individuals and societies around the world." Arguably, no other country has suffered as much from the War on Drugs as Mexico. From 2006 to 2012 alone, at least sixty thousand people have died. Some experts have said that the actual number is more than one hundred thousand. Because the war was conceived and structured by US policymakers and officials, many commentators

believe that the United States is deeply implicated in the bloodshed. *A War that Can't Be Won* is the first book to include contributions from scholars on both sides of the US-Mexico border. It provides a unique breadth of perspective on the many dimensions of the societal crisis that affects residents of both nations—particularly those who live and work in the borderlands. It also proposes practical steps toward solving a crisis that shows no signs of abating under current policies. Each chapter is based on well-documented data, including previously unavailable evidence that was obtained through freedom-of-information inquiries in Mexico. By bringing together views from both sides of the border, as well as from various academic disciplines, this volume offers a much wider view of a complex problem—and possible solutions.

It's Fun to Be a Person I Don't Know Jul 02 2021 At first glance a reader might mistake *It's Fun to Be a Person I Don't Know* for a juicy Hollywood tell-all, given Chachi D. Hauser's background as the great-granddaughter of Roy Disney, a cofounder with his brother Walt of the Walt Disney Company. And to her credit, Hauser doesn't shy away from confronting painful family memories when considering how the stories, myths, and rumors surrounding this entertainment empire have influenced her own imagination. But family history is only one strand in this intricate and variegated weave that also interlaces the social and environmental history of Hauser's adopted hometown of New Orleans, intimate reflections on love and navigating open relationships, and a searing self-examination that reveals a gender fluidity chafing against social barriers. Hauser's innovative and multifaceted narrative navigates a variety of terrains, seeking truth as its final destination. While the family company excels in fantasy, Hauser's story is that of a young documentary filmmaker determined to train a sharply focused lens on the reality of her lived experiences.

To be a Gay Man Apr 30 2021 In *To Be a Gay Man*, Will Young speaks out about gay shame, revealing the impact it had on his own life, how he learned to deal with it, and how he can now truthfully say he is gay and happy. We know Will as a multi-platinum recording artist, Olivier-nominee, and the first winner of the *Idol* franchise. But his story began long before his first audition. Looking back on a world where growing up being called gay was the ultimate insult and coming out after a lifetime of hiding his sexuality, Will explores the long-lasting impact repressing his true self has had. As Will's own story demonstrates, internalised shame in childhood increases the risk of developing low self-worth, and even self-disgust, leading to destructive behaviours in adult life. Will revisits the darkest extremes he has been to, sharing his vulnerabilities, his regrets, tracing his own navigation through it all and showing the way for others who might have felt alone in the same experience. Here you will find a friend, champion and mentor, breaking taboos with frank honesty, and offering invaluable practical advice on overcoming the difficult issues too often faced within the LGBTQ+ community.
