**If I Could Tell You Just One Thing...** May 02 2021 Richard Reed built Innocent Drinks from a smoothie stall on a street corner to one of the biggest brands in Britain. He credits his success to four brilliant pieces of advice, each given to him just when he needed them most. Ever since, it has been Richard's habit, whenever he meets somebody he admires, to ask them for their best piece of advice. If they could tell him just one thing, what would it be? Richard has collected pearls of wisdom from some of the most remarkable, inspiring and game-changing people in the world - in business, tech, philanthropy, politics, sport, art, spirituality, medicine, film, and design. From Hollywood greats like Judi Dench and Richard Curtis, to entrepreneurial legends like Richard Branson and Simon Cowell; from sports stars and TV personalities like Andy Murray and James Cordon to political activists and born survivors like Mandela's Comrades and Katie Piper, Richard has picked some of the world's most interesting brains to give you a

lesson in how to live, how to love, how to create and how to succeed.

Advice To A Young Scientist Apr 01 2021 To those interested in a life in science, Sir Peter Medawar, Nobel laureate, deflates the myths of invincibility, superiority, and genius; instead, he demonstrates it is common sense and an inquiring mind that are essential to the scientist's calling. He deflates the myths surrounding scientists -- invincibility, superiority, and genius; instead, he argues that it is common sense and an inquiring mind that are essential to the makeup of a scientist. He delivers many wry observations on how to choose a research topic, how to get along with collaborators and older scientists and administrators, how (and how not) to present a scientific paper, and how to cope with culturally "superior" specialists in the arts and humanities.

**How to Love Yourself (and Sometimes Other People)** May 22 2020 Are you trying to find love – and beginning to suspect you're not looking in the right place? This wise, hip guide gives you a new map for the journey to happiness in relationships of all kinds, starting in your own heart. Told from the alternating vantage points of authors Meggan Watterson and Lodro Rinzler, *How to Love Yourself (and Sometimes Other People)* reminds us that love isn't something we have to earn. All of us are deeply and intrinsically worthy of love – not only the love we hope to receive from others, but the love we give to ourselves – and this book offers the insight and practical tools we need to stay firmly grounded in self-love as we ride out the natural (and often stormy) cycles of relationships. Meggan and Lodro's unique perspectives as teachers and scholars of Christian mysticism and Buddhism respectively make for a rich and lively dialogue that draws on wisdom sources like the Gospel of Mary Magdalene and the Four Noble Truths, along with funny, revealing stories from their own love lives and their deep friendship with each other. You'll find guidance for embracing single life, dating with an open heart, and thriving in lasting love; meditations and practices for calm abiding, "disciplined hope," and connecting to the source of love within you; and tips on everything from sex, self-worth, and nourishing friendships to navigating breakups and learning to truly love yourself. Ultimately, you'll be able to see your ideal partner in a new light – not as someone who "completes" you, but as someone who mirrors back to you your own wholeness.

*Pretty Good Advice* Dec 21 2022 “[A] new literary genre, the MBA Memoir . . . Delivers 97 pearls of warmth, wit and wisdom from the most inspirational entrepreneur I have ever met.” —Frances Edmonds, bestselling author of *Repotting Your Life* Called the “Queen of Beauty” and the most influential lone woman to impact the beauty industry since Estée Lauder by the New York Times, Leslie Blodgett’s story is anything but ordinary. As the CEO of BareMinerals, she reinvented how beauty was sold by tapping into the power of community before the idea of social media existed. In 2006, Blodgett took the company public in one of the largest cosmetic IPOs of the decade, and in 2010, the company was acquired for \$1.8 billion. *Pretty Good Advice* is her next chapter. This refreshing book features 97 candid and entertaining insights on business, life, and beauty. Personal and often surprising, Blodgett dishes on leading with humor, why wearing blush and reading obituaries are two of the most optimistic things you can do, and why you owe it to your coworkers not to be boring. *Pretty Good Advice* is full of frank, actionable advice to help light a fire under you. “If you want to laugh, get totally

inspired, learn a bunch and enjoy reading something so engrossing you won't put it down but you could because it's written in these amazing one-ish-page chunks, GET IT. Could not be better for right now.” —Jean Godfrey June, Beauty Editor, GOOP “A moving and clear-eyed memoir of an extraordinary life. Charmingly made-up as a how-to guide, Leslie chronicles that life in vivid and memorable lessons that jump off the page.” —John W. Evans, author of *Should I Still Wish*

*Advice from My 80-Year-Old Self* Jan 30 2021 What advice would your 80-year-old self give you? That is the question artist Susan O'Malley, who was herself to die far too young, asked more than a hundred ordinary people of every age, from every walk of life. She then transformed their responses into vibrant text-based images. From a prompt to do things that matter to your heart, to a reminder that it's okay to have sugar in your tea, these are calls to action and words to live by—heartfelt, sometimes humorous, and always fiercely compassionate. This stirring celebration of our collective humanity unveils the wisdom we hold inside ourselves right now.

**30 Lessons for Living** Sep 18 2022 “Heartfelt and ever-endearing—equal parts information and inspiration. This is a book to keep by your bedside and return to often.”—Amy Dickinson, nationally syndicated advice columnist “Ask Amy” More than one thousand extraordinary Americans share their stories and the wisdom they have gained on living, loving, and finding happiness. After a chance encounter with an extraordinary ninety-year-old woman, renowned gerontologist Karl Pillemer began to wonder what older people know about life that the rest of us don't. His quest led him to interview more than one thousand Americans over the age of sixty-five to seek their counsel on all the big issues— children, marriage, money, career, aging. Their moving stories and uncompromisingly honest answers often surprised him. And he found that he consistently heard advice that pointed to these thirty lessons for living. Here he weaves their personal recollections of difficulties

overcome and lives well lived into a timeless book filled with the hard-won advice these older Americans wish someone had given them when they were young. Like *This I Believe*, StoryCorps's *Listening Is an Act of Love*, and *Tuesdays with Morrie*, *30 Lessons for Living* is a book to keep and to give. Offering clear advice toward a more fulfilling life, it is as useful as it is inspiring.

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars.
