Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists. This collection of new essays examines the long-standing question of apocalyptic expectations around the turn of the first millennium. Including works by scholars of medieval history, literature, and religion, this book argues that apocalyptic expectations did exist around the year 1000. It provides a more balanced and nuanced approach to the issue than the traditional views that either identify a time of fear, the 'terrors of the year 1000', or deny that awareness of the millennium existed. This book, instead, recognizes that there were a variety of responses to the eschatological years 1000 and 1033 and that these responses contributed to the broader social and religious developments associated with the birth of European civilization. In this memoir, Sam Wyly recounts his experiences, decisions, and business strategies that led him to become a self-made billionaire. A surprising, stunningly beautiful, and funny novel about a girl who turns invisible and, in the process, discovers who she really is, from the author of TIME TRAVELING WITH A HAMSTER Twelve-year-old Ethel Leatherhead only meant to cure her acne, not turn herself invisible. But that's exactly what happens when she combines herbs bought on the Internet with time spent in a secondhand tanning bed. At first it's terrifying to be invisible . . . and then it's fun . . . but when the effect doesn't wear off one day, Ethel is thrown into a heart-stopping adventure. With her friend Boydy by her side, Ethel struggles to conceal her invisibility, all the while unraveling the biggest secret of all: who she really is. From the talented author of Time Traveling with a Hamster comes another utterly original, deeply poignant--and humorous--novel about a girl who, by disappearing, will write herself into your heart forever. THE YEAR 1000 is a vivid evocation of how English people lived a thousand years ago - no spinach, sugar or Caesarean operations in which the mother had any chance of survival, but a world that knew brain surgeons, property developers and, yes, even the occasional gossip columnist. In the spirit of modern investigative journalism, Lacey and Danziger interviewed the leading historians and archaeologists in their field. In the year 1000 the changing seasons shaped a life that was, by our standards, both soothingly quiet and frighteningly hazardous - and if you survived, you could expect to grow to just about the same height and stature as anyone living today. This exuberant and informative book concludes as the shadow of the millennium descends across England and Christendom, with prophets of doom invoking the spectre of the Anti-Christ. Here comes the abacus - the medieval calculating machine - along with bewildering new concepts like infinity and zero. These are portents of the future, and THE YEAR 1000 finishes by examining the human and social ingredients that were to make for survival and success in the next thousand years. Hey Teammate, We all face obstacles-physical, emotional, between the ears. The good news is that everything we have fought back against can empower us, IF WE KNOW HOW TO USE IT. My obstacles happen to be anxiety and depression. I call it living in the gray, and I've been mired in it my

whole life. To be honest, it sucks. But I have also recently recognized that this same gray that has held me down has also empowered me to make my wildest dreams come true. You have probably overcome many of your own obstacles, but you've been too close to the conflict to clearly see what you've accomplished. We are all UNBREAKABLE, no matter what we do, who we are, or what traumas we may have experienced. We just need to admit that we can't walk this walk alone. --Jay Glazer

After years of rejection but with constant hustle, Jay Glazer has built a career as one of the most iconic sports insiders, earning himself a spot on the Emmy award-winning Fox NFL Sunday, a role as the confidant of coaches and players across the league, and a role as himself alongside Dwayne "The Rock" Johnson on HBO series *Ballers*. His gym, Unbreakable Performance Center, attracts some of the biggest names in Hollywood, and is the headquarters to the powerful charity MVP (Merging Vets and Players) that Jay founded in 2015. MVP began as a weekly physical and mental health huddle with combat veterans and retired athletes has expanded to seven locations, helping soldiers and players transition to a new team. In Unbreakable, Jay Glazer talks directly to you, his teammates, and shares his truth. All of his success from his screeching-and-swerving joy ride through professional football, the media, the fighting world, Hollywood, the military-warrior community, comes with a side of relentless depression and anxiety. Living in the gray, as Jay calls it, is just a constant for him. And, in order to work through the gray and succeed, Jay has to maintain an Unbreakable Mindset. With this book, you can too.

- Be of Service—help others and help yourself in the process
- Build Your Team—give support, get support
- Never Underestimate the Power of Laughter—never take yourself too seriously
- Be Proud of Your Scars—our trauma makes us who we are

Throughout Unbreakable, Jay will use his stories—featuring some of the biggest, baddest, and most fascinating characters in the public eye today—to show how he walks this walk, has learned that while the gray is very real, it doesn't have to define him. And it doesn't have to define you either. Make Money and Live Better

Why Side Hustle? > Build Skills Build Security Build Income Build Freedom My Story

After college, I did what you're supposed to do: I got a job. The problem was almost immediately I found myself looking for a way out. It wasn't that I hated the work or my coworkers, but it just wasn't what I wanted to do with my life. The thought of spending my next 30 years there was terrifying. So evenings and weekends I turned my attention online. I'd been dabbling with building rudimentary websites, learning online advertising channels, and even running my own small marketing campaigns for other companies' products to test the waters. And that's what The Side Hustle is about—finding a low-risk way make more money. Most entrepreneurship books assume you have limitless time and limitless startup capital, but I know from talking to thousands of side hustlers, that's simply not the reality. I started small and lean, but steadily built up my side hustle until I could say good-bye to corporate work. You can do it, too. I'll show you how.

Nickerson restates his formula for success in real estate, which, in case you've not heard it lately, goes like this: purchase residential property in need of rehabilitation, provide the necessary improvements, and sell the property for a minimum 25 percent profit. Case examples are used to illustrate refinements such as looking for opportunities in inner cities and keeping an open mind to creative financing possibilities. Nickerson is an experienced pro whose "How I Turned \$1,000 into a Million in Real Estate in My Spare Time" is a classic. THERE ARE MANY obvious ways to make a fortune. One is to gamble. You might get rich overnight. But gambling is not a sure thing—that's why they call it gambling. There are other speculative, get-rich quick schemes—like buying real estate with dangerous nothing down balloon-payment financing and bleeding, rather than improving, the property but most easy-money fantasies turn into nightmares, and breed negative losses instead of positive profits. By far the surest road to a fortune that can match or surpass your golden dreams is to buy, with sound financing, fixer-upper properties that you can improve. You can choose from millions of deteriorated or obsolescent properties with repair and improvement challenges that you can readily correct. Many owners just do not have the gumption to fix up wounded properties that have bled their lives away with age and neglect. If you have a little courage and imagination, you can buy such distress properties at a bargain, correct imperfections, and make a sure and spectacular profit. This gives you a built-in safety factor that guards you against going wrong. If you faithfully follow my principles it is just about impossible to go broke. The only question is not whether you will make a profit, but how much you will make! Some ghosts never leave us.

In eleventh-century China, both the living and the dead were treated to theatrical spectacles. Chambers designed for the deceased were ornamented with actors and theaters sculpted in stone, molded in clay, rendered in paint. Notably, the tombs were not commissioned for the scholars and officials who dominate the historical record of China but affluent farmers, merchants, clerics—people whose lives and deaths largely went unrecorded. Why did these elites furnish their burial chambers with vivid representations of actors and theatrical performances? Why did they pursue such distinctive tomb-making? In *Theater of the Dead*, Jeehee Hong maintains that the production and placement of these tomb images shed light on complex intersections of the visual, mortuary, and everyday worlds of China at the dawn of the second millennium. Assembling recent archaeological evidence and previously overlooked historical sources, Hong explores new elements in the cultural and religious lives of middle-period Chinese. Rather than treat theatrical tomb images as visual documents of early theater, she calls attention to two largely ignored and interlinked aspects: their complex visual forms and their symbolic roles in the mortuary context in which they were created and used. She introduces carefully selected examples that show visual and conceptual novelty in engendering and engaging dimensions of space within and beyond the tomb in specifically theatrical terms. These reveal surprising insights into the intricate relationship between the living and the dead. The overarching sense of theatricality conveys a densely socialized vision of death. Unlike earlier modes of representation in funerary art, which favored cosmological or ritual motifs and maintained a clear dichotomy between the two worlds, these visual practices show a growing interest in conceptualizing the sphere of the dead within the existing social framework. By materializing a "social turn," this remarkable phenomenon constitutes a tangible symptom of middle-period Chinese attempting to socialize the sacred realm. *Theater of the Dead* is an original work that will contribute to bridging core issues in visual culture, history, religion, and drama and theater studies. Reproduced from a rare edition, this showcase of homes ranges from cottages and bungalows to sprawling mansions. Each house is meticulously illustrated and accompanied by complete floor plans. After pulling a copy of *One Thousand Ways* off a library shelf at age eleven and devouring F.C. Minaker's plucky and practical business advice, Buffett declared that he would be a millionaire by the time he was 35. Written in the immediate, conversational style of Dale Carnegie's *How to Win Friends and Influence People*, this book is full of inventive ideas on how to make money through excellent salesmanship, hard work, and resourcefulness. While some of the ideas may seem quaint today—goat dairying, manufacturing motor-driven chairs, and renting out billiard tables to local establishments—are among the money-making ideas presented—the underlying fundamentals of business explained in these pages remain as solid as they were over seventy years ago. Covering a wide spectrum of topics including investing, marketing, merchandising, sales, customer relations, and raising money for charity, *One Thousand Ways to Make \$1000* is both a durable, classic business book and a fascinating portrait of determined entrepreneurship in Depression-era America. Every effort has been made to reproduce the content exactly as it was originally presented. After writing his first book (*How I Turned \$1,000 into Five Million in Real Estate in My Spare Time*), William Nickerson went on book tours to stores, radio and TV show explaining his new concept of the average person investing in real estate. This second book in the form of questions and answers is his response to the hundreds and thousands of questions people asked on the book tours and seminars that he gave. Nickerson crossed the country dozen of times, studying real estate developments, checking trends, and updating his information. Besides his personal contact people also sent Nickerson thousands of letters with questions and stories of their own success following his real estate teachings. Says Nickerson, "These current examples of success prove over and over how real estate investment can turn small nest eggs into large fortunes." Nickerson shows how his techniques work in different parts of the country. He tells how to appraise property values no matter where you live. Nickerson answers the following questions among others: Where is the best place to invest? How can I tell a good deal from a bad one? Can a property be worth more than the listed price? What is the riskiest property? Where can I make advantageous trades? When is a building worth remodeling? How can I get 100% financing? How does a tax free exchange work? What are my chances of success? Understanding risk -- Putting risk in perspective -- Risk charts : a way to get perspective -- Judging the benefit of a health intervention -- Not all benefits are equal : understand the outcome -- Consider the downsides -- Do the benefits outweigh the downsides? -- Beware of exaggerated importance -- Beware of exaggerated certainty -- Who's behind the numbers? In this fast-paced time travel adventure into the future, a girl and her dog set out to save the world from a deadly plague. He smells terrible. He'll eat literally anything. And he's humanity's only hope.... When 12-year-old Georgie makes friends with an eccentric retired scientist, she becomes the test-subject for a thrilling new experiment: a virtual reality 3-D version of the future. At first, it's just a game. But when a deadly virus threatens to wipe out every pup on the planet, Georgie and her beloved (and very smelly) dog, Mr. Mash, along with best friend Ramzy, must embark on a desperate quest to save the dogs-- and also all of humanity. And they have to do it without actually leaving the room. This high-concept, astonishing new novel from the author of *Time Traveling with a Hamster* takes us on an epic adventure, and asks the question: is it really possible to alter the future? The inspiring true story of Shark Tank star Barbara Corcoran--and her best advice for anyone starting a business. After failing at twenty-two jobs, Barbara Corcoran borrowed \$1,000 from a boyfriend, quit her job as a diner waitress, and started a tiny real estate office in New York City. Using the unconventional lessons she learned from her homemaker mom, she gradually built it into a \$6 billion dollar business. Now Barbara's even more famous for the no-nonsense wisdom she offers to entrepreneurs on Shark Tank, ABC's hit reality TV show. *Shark Tales* is down-to-earth, frank, and as heartwarming as it is smart. After reading it don't be surprised if you find yourself thinking, "If she can do it, so can I." Nothing would make Barbara happier. Abridged edition. Author William Nickerson did so well with his spare-time money-making that at 42 he was able to realize the popular dream of early retirement from the daily grind on a high income. He explains in detail how he did this in his best-selling sensation, *How I Turned \$1,000 Into Five Million*, out of his firm conviction that the age of opportunity is not dead - that even today the road to fortune still lies open to the average person. Award-winning journalist Ruth Gruber's powerful account of a top-secret mission to rescue one thousand European refugees in the midst of World War II In 1943, nearly one thousand European Jewish refugees from eighteen different countries were chosen by President Franklin Delano Roosevelt's administration to receive asylum in the United States. All they had to do was get there. Ruth Gruber, with the support of Secretary of the Interior Harold Ickes, volunteered to escort them on their secret route across the Atlantic from a port in Italy to a "safe haven" camp in Oswego, New York. The dangerous endeavor carried the threat of Nazi capture with each passing day. While on the ship, Gruber recorded the refugees' emotional stories and recounts them here in vivid detail, along with the aftermath of their arrival in the US, which involved a fight for their right to stay after the war ended. The result is a poignant and engrossing true story of suffering under Nazi persecution and incredible courage in the face of overwhelming circumstances.
