This is the first complete translation of Tandai shÅ shin roku, which provides the best source for an understanding of the eighteenth-century Japanese literary figure Ueda Akinari (1734-1809) a man of many talents and wide-ranging interests: haikai and waka poet, writer of fiction, commentator on Japanese classical texts, doctor of Confucian medicine, keen student of history and botany, tea connoisseur and amateur potter. In this highly personal work dating from his last year, when he was almost blind and in poor health, Akinari allows his writing brush to wander at will, giving his unvarnished opinions on contemporary and historical people and events, commenting on various social customs, criticizing friend and foe alike, defending the existence of the supernatural and sharing his love of nature. Akinari's candour, humour, curiosity of mind and impressive erudition make Tandai shÅ shin roku an unusual and interesting text that has long deserved to be better known. With over 20 components including texts, workbooks, CDs, videos and teacher's manuals, it is also one of the most comprehensive. Now, a decade after its first revision, the entire series is being redesigned, updated and consolidated to meet the needs of 21st-century students and businesspeople who want to learn natural, spoken Japanese as effectively as possible in a limited amount of time. The book features not only a sleek, new design but also a unit structure that groups thematically linked lessons together, making it easier than ever to learn Japanese. Moreover, it now comes with a CD containing audio for the dialogues and listening exercises from the text. The exercises in the book have also been thoroughly revised to incorporate more comprehension and production tasks. Many of these exercises are illustrated, making for a stimulating learning experience, and the purpose of each one is clearly stated. This first of three volumes introduces "survival Japanese" — the absolute minimum amount of Japanese needed to live in Japan. Thus, the vocabulary and grammatical items it introduces are limited to about a third of what is typically introduced in a first-year course. In addition, the book features notes on Japanese culture intended to expand the learner's understanding of Japan, its customs and people. Japanese for Busy People I is available in two formats: romanized and kana. The

Romanized Version uses romanized Japanese throughout, with kana in the Opening Dialogues of each lesson. The Kana Version — exposing students to hiragana and katakana from the very beginning — uses only kana. The content of the two books is otherwise exactly the same. The companion volume, Japanese for Busy People 1: The Workbook for the Revised 3rd Edition contains a variety of illustrated exercises for mastering the basic sentence patterns presented in the main text.

Extending their successful series of collections on Zen Buddhism, Heine and Wright present a fifth volume, on what may be the most important topic of all - Zen Masters. Following two volumes on Zen literature (Zen Classics and The Zen Canon) and two volumes on Zen practice (The Koan and Zen Ritual) they now propose a volume on the most significant product of the Zen tradition - the Zen masters who have made this kind of Buddhism the most renowned in the world by emphasizing the role of eminent spiritual leaders and their function in establishing centers, forging lineages, and creating literature and art. Zen masters in China, and later in Korea and Japan, were among the cultural leaders of their times. Stories about their comportment and powers circulated widely throughout East Asia. In this volume ten leading Zen scholars focus on the image of the Zen master as it has been projected over the last millennium by the classic literature of this tradition. Each chapter looks at a single prominent master. Authors assess the master's personality and charisma, his reported behavior and comportment, his relationships with teachers, rivals and disciplines, lines of transmission, primary teachings, the practices he emphasized, sayings and catch-phrases associated with him, his historical and social context, representations and icons, and enduring influences. Japanese from varied domains, as well as shogunal officials, Nagasaki merchants, and an assortment of deck hands, made the voyage along with a British crew, spending a total of ten weeks observing and interacting with the Chinese and with a handful of Westerners. Roughly a dozen Japanese narratives of the voyage were produced at the time, recounting personal impressions and experiences in Shanghai. The Japanese emissaries had the distinct advantage of being able to communicate with their Chinese hosts by means of the "brush conversation" (written exchanges in literary Chinese). For their part, the Chinese authorities also created a paper trail of reports and memorials concerning the Japanese visitors, which worked its way up and down the bureaucratic chain of command. This was the first official meeting of Chinese and Japanese in several centuries. Seki was a Japanese mathematician in the seventeenth century known for his outstanding achievements, including the elimination theory of systems of algebraic equations, which preceded the works of Étienne Bézout and Leonhard Euler by 80 years. Seki was a contemporary of Isaac Newton and Gottfried Wilhelm Leibniz, although there was apparently no direct interaction between them. The Mathematical Society of Japan and the History of Mathematics Society of Japan hosted the International Conference on History of Mathematics in Commemoration of the 300th Posthumous Anniversary of Seki in 2008. This book is the official record of the conference and includes supplements of collated texts of Seki's original writings with notes in English on these texts. Hikosaburo Komatsu (Professor emeritus, The University of Tokyo), one of the editors, is known for partial differential equations and hyperfunction theory, and for his study on the history of Japanese mathematics. He served as the President of the International Congress of Mathematicians Kyoto 1990. List of members in each volume.
